EDUCATION

Bachelor of Engineering - Computer Science and Engineering 2024 – Present
Deenbandhu Chhotu Ram University of Science and Technology (DCRUST), Murthal, Sonipat **CGPA: 8.09**
Class XII - Science 2022 – 2023
Jawahar Navodaya Vidyalaya (JNV), Bhiwani **Score: 90%**

TECHNICAL SKILLS

Programming Languages: C, C++, Python, SQL
Python Libraries: NumPy, Pandas, Matplotlib, Seaborn
Cloud: Amazon Web Services (AWS), Cloud Computing Fundamentals
Databases: MongoDB, MySQL, SQL
Tools: Git, GitHub, Visual Studio Code, Cursor, Claude, Antigravity
Core CS Coursework: Data Structures, DBMS , Oops , Operating Systems, CN, Software Engineering
Soft Skills: Communication, Teamwork, Time Management

WORK EXPERIENCE

AWS Cloud Intern – EWB Edutech Private Limited (Virtual) Sep 2026 – Oct 2026

- Completed a 4-week virtual Amazon Web Services internship through mentor-led sessions, maintaining required attendance throughout the programme.
- Cleared weekly assessments, delivered assigned AWS cloud computing tasks and built a final mini project applying AWS skills to a practical use case.

Full-Stack Software Development Intern – InternInfobyte (Remote) Feb 2026 – Present

- Collaborated on industry-level full-stack development projects, identifying and implementing effective solutions to real-world software problems.
- Gained hands-on experience with end-to-end product development, contributing to both front-end and back-end modules.

PROJECTS

AskBabbar – RAG-Based DSA Learning Assistant | Python, FastAPI, Qdrant, Gemini API, Whisper GitHub

- Built an end-to-end Retrieval-Augmented Generation (RAG) assistant over a 149-lecture C++ DSA course: transcribed videos with Whisper, embedded 1,255 chunks with all-MiniLM-L6-v2 into a Qdrant vector database, and used hybrid retrieval to return answers grounded in lecture content with clickable YouTube timestamp links.
- Developed FastAPI endpoints (/query, /search, /health) integrating the Gemini API for answer synthesis with an extractive fallback, a chat-style web UI, and 34 unit and integration tests using Pytest.

Passport Automation System (PassportEase) | JavaScript, Supabase, Vercel GitHub

- Developed a full-stack online passport application portal with separate citizen, admin and police portals, featuring a 6-step application wizard, document preview and real-time status tracking; deployed on Vercel with a Supabase REST API backend.
- Implemented a sequential 5-step verification workflow (admin document review, police verification, final admin approval, passport issuance) with watermarked document uploads, row-level security, multilingual support and an AI support chatbot.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- **Core Team Member**, AWS Student Builder Group
- 3rd Place – **Smart India Hackathon (SIH),** College-Level Competition
- 3rd Place – College-Level AWS Quiz
- 2nd Runner-Up – National Hackathon organized by PIET (Panipat Institute of Engineering and Technology)
- Honored with NCC Best Cadets Award with 'A' Certificate

CERTIFICATIONS

- Introduction to Artificial Intelligence
- TCS iON Career Edge – Young Professional Certificate
- College-Level Certifications and Competitions such as Web Master and Quizzes
- SQL – basic and advanced level certified
